§ It is recommended that students choosing the environmental option on the chemistry major minor in environmental science. This curriculum map is written assuming an environmental chemistry minor. If the student wishes to minor in something other than environmental sciences consult with advisor.

\* Math 174 may be skipped if student is qualified to start in Math 175.

\*\* Chemistry 441 is offered every third semester; consult with advisor regarding exactly which semester you should take it.

‡ Courses for the minor, gen ed courses and electives should be chosen to complete 43 upper division credit hours when combined with the major. Pre-health professional students should consult with their advisor regarding an appropriate minor.
