

BACHELOR OF SCIENCE IN TECHNOLOGY MANAGEMENT

Did you know that Morehead State University has a degree program for graduates of KCTCS and other community colleges? Offered through the Elmer R. Smith College of Business and Technology, the Bachelor of Science in Technology Management (BSTM) at Morehead State is an online completter degree program for people who have an associate degree in a technology-related field.

The two-year program is offered completely online, allowing working professionals the convenience to earn a degree at their own pace. Students can choose between a technology systems option and an information systems option.

The BSTM online completter program offers the scheduling flexibility that many working professionals require to complete a 120-hour bachelor's degree. A blend of communication, technology and management competencies provide a skill set that will continue to be in high demand.

Morehead State University accepts the full transfer of credits from any approved community college Associate of Science (AS) or Associate of Applied Science (AAS) degree program.

The BSTM is offered completely online using the Blackboard learning management system.
