

ROBOT GLADIATOR

— TRAINING CAMP —

A summer training camp with competitive battling robots for engineering enthusiasts

SPONSORED BY: The Center for STEM+eXcellence
DELIVERED BY: Newton's Attic

July 10 – July 23, 2022
For rising 9th and 10th grade students
Program Cost: \$600
Financial Assistance Available!

The Robot Gladiator Training Camp is residential STEM+X summer program that brings together science, mathematics, engineering, and convergent media.

Participants will design and build a competitive, full-contact robot that will battle in an armored arena. Participants will create video productions that document their experiences.
