

Where Have We Been?

Oh, rather a lot of places. Ever since the international experience became a required feature of the Honors Program in 2010, MSU Honors students have made the most of their opportunities to explore the world. We used to have a big map of the world on the wall, with little post-it notes indicating which students had visited which places. The problem was that we soon had so many notes that we couldn't see the map! So instead, here is a list of Honors students and the countries they have been to—so far!

North America and the Caribbean

United States

(We often have international students in the program. Since they are having an international experience just by coming here, we give them the option of fulfilling the requirement by going elsewhere in the United States. So far, however, almost all have preferred to go to a third country!)
